What's the Future of Energy? Post-Japan & Other Global Energy Disasters

**James Lucier, Energy Analyst
and Managing Director, Capital Alpha Partners**

Issues explored:

- ◆ **Lessons learned from**
 - **Kobe and Tohoku earthquakes**
 - **Three Mile Island**
 - **BP Deepwater Horizon**
- ◆ **Political implications for nuclear power in the US and abroad**
- ◆ **Status of the Japanese nuclear power industry**
- ◆ **The future of nuclear energy**

James Lucier an energy analyst by profession has also followed the politics and culture of Japan as an avocation for nearly 30 years. He is a Managing Director at Capital Alpha Partners, LLC where he specializes in the fields of energy and environment, climate, tax, and technology policy as well as diverse special situations. His work integrates technical expertise with deep insight into the process and institutions of Washington. In addition to his industry work, Lucier has extensive background in political forecasting. Lucier frequently appears as a speaker at industry conferences and a commentator in the financial press. He lives in Arlington, Virginia.
